FREE WATER LOSS AUDIT ASSISTANCE

Senate Bill 555 requires all urban water suppliers to submit a completed and validated water loss audit by October of 2017 and annually thereafter. In response to this new requirement, the CA-NV Section of American Water Works Association (AWWA) is offering a water loss Technical Assistance Program (TAP) at no cost to water suppliers.

The water loss TAP is a series of workshops, in person meetings, and phone calls with experts in the field of water loss control. These experts will help you gather the right resources to make sure that your water audit is complete and informative. By working with these experts along the way, your water audit will be validated and in compliance with these new requirements.

Registration: [Register by June 30 here.](#)

If you have any questions about this upcoming program, please feel free to reach out to The Water Loss Control Collaborative Team directly at waterlosscontrolcollaborative@gmail.com

If you have questions about the UWMP Tool, please contact the UWMP Help Desk, (UWMPHelp@water.ca.gov).
